## Who is The Benedict Partnership LLP

This limited liability partnership is part of the Intrust Group and provides UK tax compliance services and UK & International tax advisory services for a wide range of corporate and private clients.

### The services that we can offer

Through our qualified and professional staff, we are able to provide a full range of tax compliance services in the UK, which encompass income, capital gains and inheritance taxes for individuals and corporation and capital gains taxes for corporate entities.

In addition, we are able to provide a comprehensive range of tax related advisory services to high net worth individuals, companies and their professional advisors.

With an increasing emphasis on the regulation of global tax systems and a prevalence of anti-avoidance tax provisions, we are finding it increasingly appropriate to advise clients on more complex tax planning opportunities.

The nature of tax planning has greatly altered in recent years and is constantly evolving. This

dynamic and ever changing environment calls for innovative solutions and we strive to be at the forefront in the implementation of tax planning strategies using well respected jurisdictions.

### International Tax Planning

Tax structuring should be carefully considered and reviewed by experts in order to optimise fiscal opportunities.

Business activities need to be constantly monitored to take account of actual and proposed changes in tax legislations and their impact in the context of market globalisation.

Tax planning techniques are therefore becoming an essential part of an enterprise's business strategy, even for small and medium entities.
